COMMENTS:

To Your Worship and City Council,

On behalf of the Saskatoon & Region Home Builders and Developers, I wish to comment on the proposed report which deals with costs associated with new development and the suggestion that new development is not covering costs associated with community services.

It is our position that additional developmken fees and higher costs of building will have a detrimental effect on the cost of housing and affordability in our city.

We wish to address this further by collaborating on additional studies and partnerahips with teh City of Saskatoon

Sincerely,

Alan H.J Thomarat
