Mr. Mike Simmons, Vice President, Saskatoon Chapter, AEBC, addressed the Committee regarding accessibility issues. He requested that audible pedestrian signals be automatic with no requirement to press a button, which is difficult for those who are sight challenged. Mr. Simmons expressed his appreciation to Saskatoon Transit regarding the program which announces bus stops automatically. He inquired when new parking meters would be placed on permanent pads as the temporary spots can cause mobility issues. Mr. Simmons also spoke regarding taxis and asked that laws in place in Ottawa be looked at as an example with regard to rules and regulations for taxi drivers to assist in providing better service for people with visual impairments.

General Manager, Community Services Grauer addressed questions regarding progress in relocation of parking meters to their permanent position. An update report will be provided to the Standing Policy Committee on Transportation.

**Moved By:** Councillor Clark

That the matter be referred to the Accessibility Advisory Committee for further discussion and report back to a future meeting of the appropriate Standing Policy Committee.

In Favour:   Councillor Paulsen, Councillor Iwanchuk, Councillor Clark and Councillor Olauson

His Worship the Mayor & City council:

I am writing on behalf of the Saskatoon Chapter of AEBC to request a meeting with the Mayor, Don Atchison, and any interested city council members to discuss issues that impact on the lives of blind, deaf/blind & partially sighted citizens of Saskatoon. Alliance for Equality of Blind Canadians (AEBC), is a National organization of Canadians who are Blind, Deaf/Blind and partially sighted, who are working together to increase awareness of common issues and to advocate for greater opportunities for full and equal access to all Public services and benefits available in Canadian Society.

At our annual general meeting, held on June 6, 2015, it was agreed that we ask for a meeting to discuss certain accessibility issues, failing this we would be prepared to make a presentation before city council.

On the City of Saskatoon web page, there are listed City initiatives addressing Accessibility issues.

**“Regular Transit – installing automated voice technology to call out bus stops for patrons who are visually impaired”**

We were told several years ago that bus drivers would call out stops on transit buses until the technology has been installed, this is still not happening on a consistent basis.

### **Taxi service in Saskatoon**

Since the City of Saskatoon licenses taxi drivers, it is incumbent upon the city to enforce the rules and regulations that are laid out before taxi drivers are licensed. Our members consistently have had problems with taxi drivers who have no knowledge of the city, very limited language skills, customers being taken to incorrect addresses & drivers refusing to transport service animals.

We are pleased that the city of Saskatoon is taking initiatives to improve access for all its citizens including the disabled; however, the new parking meters being located in the downtown core are proving to be major barriers for independent travel for blind, deaf/blind and partially sighted pedestrians.

**Audible pedestrian signals:**

We appreciate the audible pedestrian signal (APS) which are being installed in Saskatoon, but in many cases the audible component cannot be heard and there is still the necessity to push buttons to engage a signal in the downtown core.

In closing, I trust that you will give due consideration to our request, as tax paying citizens of Saskatoon, we have the same rights to equal access to the benefits and opportunities of society.

Respectfully submitted;

Judith Prociuk, Secretary/treasurer

Saskatoon Chapter AEBC
