REPLACE SMOKE ALARMS EVERY 10 YEARS

Smoke alarms do not last forever. Check the manufacture date on your smoke alarms. If the alarms are 10 years old or older, replace them with new alarms. To keep your smoke alarms in good working order, they need to:

- Be tested at least every three months
- Have the batteries replaced yearly or when the detector is chirping
- Be replaced every 10 years, even if they are hard wired

For more information, visit saskatoon.ca/fire.
