

CITY CENTRE & DISTRICT PLAN

Ohtannah, “the collective heart” of Saskatoon

- Official Community Plan
- City Centre & District Plan

The City Centre & District Plan: Ohtannah, “the collective heart” of Saskatoon

Council consideration on September 25, 2024

Prepared by
Planning and Development Department
City of Saskatoon

The City Centre and District serve as the geographical and metaphorical Ohtannah, the “collective heart” of Saskatoon. What happens in the City Centre and District has a direct impact on the rest of the city.

EXECUTIVE SUMMARY

The City Centre and District Plan (Plan) provides the roadmap for Saskatoon's City Centre and District. The ultimate outcome for the City Centre and District is to be a place that reflects all of Saskatoon – now and into the future. The Plan outlines strategic directions for the City of Saskatoon, civic partners, rightsholders, stakeholders, individuals with lived experience and the public to take the vision of the Plan from idea to action.

This Plan establishes the Downtown Event and Entertainment District (District) within Saskatoon's broader City Centre and also updates the City Centre Plan. City staff, in consultation with technical consultants and incorporating input from the community, incorporated the decisions that have been made since approval of the City Centre Plan in 2013.

Outlined in this Plan is guidance and direction for public realm design for streets, plazas and other public spaces. Additionally, it defines the approach to land use policy for the District and the broader City Centre, outlines strategies for enhancing connectivity and mobility throughout and provides a framework for heritage, safety and culture to foster an inclusive and accessible City Centre and District.

LAND ACKNOWLEDGMENT

As we work together on city-building projects, we acknowledge our ancestors and future generations. We honour Treaty 6 Territory and the Homeland of the Métis, by sharing this land under Treaty with the Cree, Saulteaux, Dakota, Métis, Dene and Non-Indigenous peoples. We commit to Truth and Reconciliation and the Calls to Action.

Indigenous Peoples of primarily Cree, Dakota and Saulteaux have called the area known as Saskatoon home for thousands of years. Today, Saskatoon is home to Indigenous peoples from a diversity of cultures and language groups.

The City of Saskatoon (City) recognizes the distinct order of government of First Nations and Métis and is committed to maintaining strong relationships through meaningful dialogue with Indigenous communities and organizations.

Strengthening cooperation and mutual support by working in partnership with Indigenous communities towards respective community goals and objectives is vital to fostering more inclusive communities.

The City's Planning and Development department extends its heartfelt gratitude to Ceremonialist/Knowledge Keeper Peter Nippi for sharing his teachings on the concept of 'Ohtannah'. The City reaffirms its dedication to learning from Elders and Knowledge Keepers through the implementation of this Plan, aiming to deepen our understanding to strengthen the 'Ohtannah', the collective heart of Saskatoon.

1 INTRODUCTION

INTRODUCTION

The City Centre and District serve as the geographical and metaphorical ohtannah (OH-ta-na), the “collective heart” of Saskatoon. What happens in the City Centre and District has a direct impact on the rest of the city. To unlock its full potential, we must wholeheartedly embrace and invest in it, recognizing its pivotal role as the collective ‘ohtannah’ of Saskatoon. The vitality of a dynamic and vibrant City Centre and District extends beyond its borders, benefiting all citizens.

ABOUT THE PLAN

Saskatoon’s City Centre and District Plan (Plan) is a non-statutory plan outlining the vision and strategic initiatives to support the Downtown Event and Entertainment District (District) and the broader City Centre. Achieving the Plan’s vision will require building on the momentum, strategic investment, multi-party collaboration and adaptability.

This Plan updates and replaces the 2013 City Centre Plan. Considerable progress was made over the past decade on implementing the City Centre Plan; however, with the introduction of a Downtown Event and Entertainment District and other transformative projects, there was need for a new, modern Plan.

The Plan provides guidance and actions for public realm enhancements and facilitating development. The planning process involved assessing the current state of the City Centre, evaluating infrastructure investment potential, creating an engaging network of public spaces and streets, identifying development opportunities, and presenting a phased approach for future decisions, all while integrating the District as part of the area.

The City Centre and District Plan will guide future budget requests to prioritize actions by the City of Saskatoon.

The City Centre is...

A Place to Work

Highest concentration of jobs in the city

An Economic Force

Over 10 per cent of the city’s total municipal property tax, less than 1 per cent of its area

A Place to Connect

Saskatoon’s transportation and social hub

A Public Service Hub

The city’s administrative hub easily accessible to citizens

A Place to Learn

Home to Saskatchewan Indian Institute of Technologies (SIIT), Saskatchewan Polytechnic Downtown Campuses, Edwards Executive Education Campus, Saskatoon Business College

A Place for Inspiration

Remai Modern, Sid Buckwold Theatre, Central Library and several art galleries

An Emblem

Saskatoon’s image to the world

A Place to Discover

The primary destination for visitors

A Place connected with Nature

60 per cent of Downtown is within a 5-minute walk of river trails.

THE DOWNTOWN EVENT AND ENTERTAINMENT DISTRICT

The District creates a place for people to come together from the city and surrounding area. The District reinforces the Downtown as the centre of commercial, tourism, services and entertainment.

While Downtown attracts residents and visitors, the District does not currently meet its potential. The District is presently characterized by surface parking lots, a lack of public space and connections with the rest of Downtown and adjacent neighbourhoods. An enhanced District will bring more people and activity to the Downtown both on event days, and throughout the year, welcoming visitors and enhancing the overall appeal of the Downtown and Saskatoon.

JOURNEY to the DISTRICT

EVENT CENTRE/ARENA • CONVENTION CENTRE • BRT

INTRODUCTION

Figure 1: The District Potential User Groups

ALIGNMENT WITH PLANS, POLICIES AND STRATEGIES

This Plan aligns with the City’s strategic initiatives, Strategic Plan and Official Community Plan. It builds on and complements other plans, strategies, and initiatives within the City Centre area.

An analysis of past studies and strategies with recommendations important to the City Centre and District were considered. This analysis identified common themes and improvements directly

relevant to updating the City Centre Plan, with the District as an important addition.

The policies and actions outlined in these plans and strategies have been incorporated into this Plan, with updates to account for work already completed.

Figure 2: Alignment with Plans & Strategies

Saskatoon’s City Centre and District Plan, 2024

PLAN AREA

The City Centre and District are located on Treaty Six Territory and Traditional Homeland of the Métis. The City Centre encompasses approximately 246 hectares (608 acres) of land and includes Downtown, 20th Street West Commercial Corridor (Riversdale), Broadway Avenue Commercial Corridor (Nutana) and College Drive adjacent to the University of Saskatchewan (Varsity View).

Broadway Avenue, 20th Street West and College Drive significantly contribute to the City Centre. Separate plans tailored to those areas are detailed through the City’s Corridor Planning Program. This Plan considers policy boundaries within the City Centre boundary; however, this Plan focuses primarily on the Downtown and the District.

INTRODUCTION

Downtown is made up of the following districts: the Warehouse District, the Event and Entertainment District, River Landing, the Historic Downtown District, and the Spadina District.

Grounded in existing characteristics, these districts guide future development by informing the built environment and public realm considerations in the Downtown.

Downtown Districts

1. Warehouse District

The character of the Warehouse District is its distinctive built form and unique street layout. Functioning as a mixed-use district, the district has the potential for a focus on residential growth with small-scale commercial uses.

2. Entertainment District

The Entertainment District is poised as the heart of Downtown. Designed to foster vibrant destinations, complimenting existing and future businesses and destinations, the District will draw residents and visitors from across the province.

3. River Landing

A premium destination with space for families to gather and play and where citizens of all ages come together to attend cultural performances and art exhibitions.

4. Historic Downtown District

These historic corridors offer early 20th century architecture, our iconic Bessborough Hotel, numerous businesses, restaurants, offices and civic uses and services.

5. Spadina

One of the city's most scenic districts and the site of many festivals and links to Meewasin Trail. A mix of high density residential, commercial and recreational uses featuring the near proximity to the South Saskatchewan River Valley.

An enhanced District will bring more people and activity to the Downtown both on event days, and throughout the year, welcoming visitors and enhancing the overall appeal of the Downtown and Saskatoon.

② VISION & GOALS

GOALS AND PRINCIPLES

Reconciliation by honouring Indigenous Peoples, histories, languages and culture.
Establish inclusive, respectful and reciprocal processes throughout the planning process that align with and support the Truth and Reconciliation Calls to Action and the United Nations Declaration on the Rights of Indigenous Peoples.

A distinctive identity through placemaking/placekeeping.
Recognize and enhance a Downtown that celebrates the land's heritage, city's history, community's culture and embraces our winter city to foster a year-round hub for culture and entertainment.

Architectural and public realm design excellence.
Inspire a sense of place through high quality facility design, the use of environmental design principles in buildings and public space and embracing all-season design.

Reliable and efficient transportation options.
Enhance accessibility and connectivity of all modes of transportation to allow for enjoyable, safe and cost-effective movement of people in, to and around the Downtown and adjacent neighbourhoods.

Downtown density with a focus on housing.
Plan and encourage a mix of housing choices in the Downtown to attract a diversity of community members.

Leadership in sustainability and resiliency.
Demonstrate and exemplify leadership in sustainability through urban infill choices, economic development, climate resiliency and green infrastructure.

A robust and diverse economy.
Preserve the Downtown as the cultural, social and employment centre of the community, while encouraging a thriving, diverse economy that attracts local, regional and global employers that generate high quality jobs throughout the Downtown and city.

A healthy and safe community.
Support an authentic and welcoming community that promotes equitable opportunities for all to participate, fosters a safe and inclusive environment and cultivates a strong sense of belonging.

The strategic framework establishes a blueprint for how the City Centre and District will grow and evolve over the coming decade. Each of the components (described in the following chapters) work together to advance the future of Saskatoon’s City Centre and District.

Figure 3: Strategic Framework

A safe and vibrant Downtown is a welcoming and inclusive place for all people to come together in cooperative spirit. The City Centre and District supports a strong economy, strengthens our diverse community and attracts people to live, work, play and learn in the Downtown

3 TRANSFORMATIVE PROJECTS

TRANSFORMATIVE PROJECTS

Transformative Projects, outlined in Map 3, are investments that will tangibly implement and advance the vision and goals of this Plan.

Bringing the Transformative Projects to fruition will require the collaboration of multiple partners, including those with lived experience and input from the community.

These projects will support ongoing revitalization while positioning the City Centre and District for success and prosperity into the future. This Plan includes the key elements of each Transformative Project while allowing specific plans to evolve and respond to changing contexts and new opportunities.

A. TRANSFORMATIVE STREETS

A1. 22nd Street Festival Street

Passing through the heart of the District, 22nd Street will be narrowed to improve the pedestrian environment and create more programmable public space. The redesigned street will include wider sidewalks, accessible drop-off locations and more

extensive landscaping. It will create space for large gatherings and community events by allowing the street to be closed to non-transit vehicular traffic during festivals and large events.

To move this project forward:

- A1.1 Secure funding for the project through the DEED Funding Strategy, capital funding or grant funding opportunities.
- A1.2 Develop a functional design for the street that includes additional public space, maintains continuous Link service whenever possible and includes space for movement and space for passive gathering.
- A1.3 Construct the Festival Street in coordination with the surrounding public spaces and catalyst facilities and develop a Link detour plan for continuous transit service during construction.

Figure 4: Conceptual Cross Section, 22nd Street Festival Street

Map 3: Transformative Projects Map

TRANSFORMATIVE PROJECTS

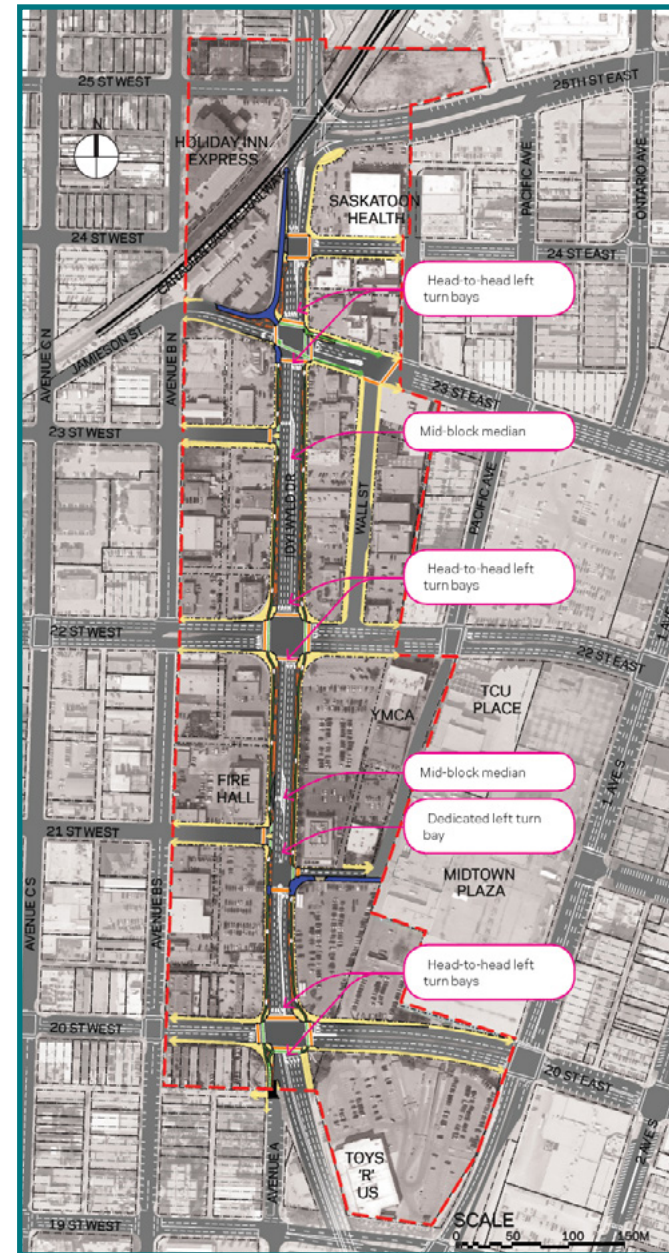

A2. Imagine Idylwyld

Idylwyld Drive is a major north-south arterial corridor and a key gateway into the City Centre and District. Improvements to Idylwyld Drive will strengthen the connections between surrounding neighbourhoods and business districts to Downtown, making it easier for people to get around and define the street as a gateway by cultivating a sense of arrival.

To move this project forward:

- A2.1 Prioritize this project as a top priority on the Prioritized Transportation Infrastructure Project List.
- A2.2 Identify funding for the project, including pursuing grant funding, and other sources.
- A2.3 Update the land use and zoning framework along Idylwyld Drive to encourage mixed use development, aligned with the Imagine Idylwyld Vision.
- A2.4 Once funding is secured and approved by City Council, proceed with detailed design and construction.

Map 4: Imagine Idylwyld Conceptual Design Site Plan

A3. 23rd Street Greenway

The 23rd Street Greenway presents a unique opportunity to transform 23rd Street into an urban linear greenway connecting the Meewasin Trail into the City Centre and District.

The 23rd Street Greenway is proposed to accommodate protected bike lanes, public art, and pedestrian focused improvements, as well as resilient plantings, trees, and rain gardens, increasing the presence of green space in the City Centre.

To move this project forward:

A3.1 Secure funding for the project and apply for alternate sources of funding when applicable and available.

A3.2 Engage with stakeholders and community for feedback regarding public realm and streetscaping elements to support the protected bike lanes on 23rd Street.

A3.3 Develop a functional design for the street, including elements that include additional public space, protected bike lanes, low impact development and increased landscaping of resilient trees and plantings.

A3.4 Once funding is secured and approved by City Council, proceed with construction.

Figure 5: Conceptual Cross Section, 23rd Street Greenway

TRANSFORMATIVE PROJECTS

B. CATALYST FACILITIES

B1. Event Centre

The Event Centre will create a next generation entertainment destination. Bringing the Event Centre into the heart of the city will position Saskatoon to pursue a wide range of concerts, performances and sporting events, enlivening the District and city throughout the year.

To move this project forward:

- B1.1 Secure funding for the project through other levels of government and the financing tools outlined in the DEED Funding Strategy.
- B1.2 Work with a private partner to establish an operational and revenue sharing agreement.
- B1.3 Once funding is secured, proceed with detailed design, creating a catalytic facility that activates Downtown, interacts with the surrounding public realm and integrates with the growing Downtown neighbourhood.

Figure 6: Conceptual Exterior Rendering, Event Centre, Stantec, 2024

Figure 7: Conceptual Interior Rendering, Event Centre, Stantec, 2024

B2. Convention Centre and Theatre

Expanding and renovating the Convention Centre will better serve the contemporary demands of conferences, meetings, workshops and events. Combined with a feasible and sustainable renovation plan for the Sid Buckwold Theatre, the concept supports the overall needs of users of the venues.

The expanded and renovated Convention Centre and Sid Buckwold Theatre are additional anchor facilities to bring more people to the District, enlivening public spaces through indoor-outdoor relationships and serves the needs of the entire city.

To move this project forward:

- B2.1 Secure funding for the project through other levels of government and the financing tools outlined in the DEED Funding Strategy.
- B2.2 Work with a private partner to establish an operational and revenue sharing agreement.
- B2.3 Once funding is secured, proceed with detailed design, creating a catalytic facility that activates Downtown, serves the needs of residents and visitors alike, and enhances the cultural and economic experience of the city.

Figure 8: Conceptual Exterior Rendering, Convention Centre and Theatre

Figure 9: Conceptual Interior Rendering, Convention Centre

Bringing the Event Centre into the heart of the city will position Saskatoon to pursue a wide range of concerts, performances and sporting events, enlivening the District and city throughout the year.

B3. New Central Library

The new central library will contribute to the overall quality of life for Saskatoon’s residents. It will enhance services to meet the needs of the community now and into the future, create critical social infrastructure, generate positive economic impact and stimulate Downtown revitalization.

To support this project forward:

- B3.1 The City work to enhance the surrounding street context and public amenities near the new central library.
- B3.2 When implementing actions outlined in this Plan, the City consider the new central library location and the critical social infrastructure role it will play in the City Centre and District for generations to come.

Figure 10: Conceptual Interior Rendering, Central Library, Saskatoon Public Library, 2024

Figure 11: Conceptual Interior Rendering, Central Library, Saskatoon Public Library, 2024

C. SPACES

C1 & C2. Community & Linear Park

The Community Park (located between 23rd and 24th Street) is designed to cater to the growing residential population of the Warehouse District. It serves as a tranquil and serene location for residents and workers to take leisurely strolls, walk their dogs, or observe their children play in the outdoor playground. Further north, the Linear Park (located between 24th and 25th Street) provides additional opportunities for sitting and recreation while also serving as an active transportation function, connecting the Event and Entertainment District to parking areas and neighbourhoods to the north.

The generous green spaces include trees that provide ample shade and create additional habitat in the Downtown, contributing to the evolving and increasingly green cityscape.

These parks are designed with future community needs in mind. They offer flexible spaces that can be organized both for and by the community, enabling a variety of activities and community programs.

Continued on page 23.

Map 5: District Parks Spaces, DEED Conceptual Design Report

Figure 12: Community Park Rendering – looking south,
DEED Conceptual Design Report

Figure 13: Community Park Rendering – looking north,
DEED Conceptual Design Report

To move these projects forward:

- C1.1 Pursue and protect the property for the Community and Linear Park.
- C1.2 Explore and secure funding sources, such as the DEED funding strategy, capital funding and grant funding opportunities to implement the park spaces.
- C1.3 Develop conceptual park designs to meet the needs of both current and future Downtown residents and visitors.
- C1.4 Once funding is secured and approved by City Council, proceed with development and implementation of the park spaces.

TRANSFORMATIVE PROJECTS

C3. The District Public Gathering Spaces

The District includes several flexible spaces, featuring a mix of hardscape and softscape, to serve daily activities and significant events.

Convention Centre Plaza, Concert Terrace, Gateway Plaza, the Landing and the Courtyard collectively shape a city-scale communal space that can accommodate 2,000 people during major events.

Concert Terrace and Pavilion: The Plaza features a pavilion for activities and small outdoor performances, paired with a slightly elevated grass oval creating an adaptable outdoor amphitheater with clear views toward the pavilion.

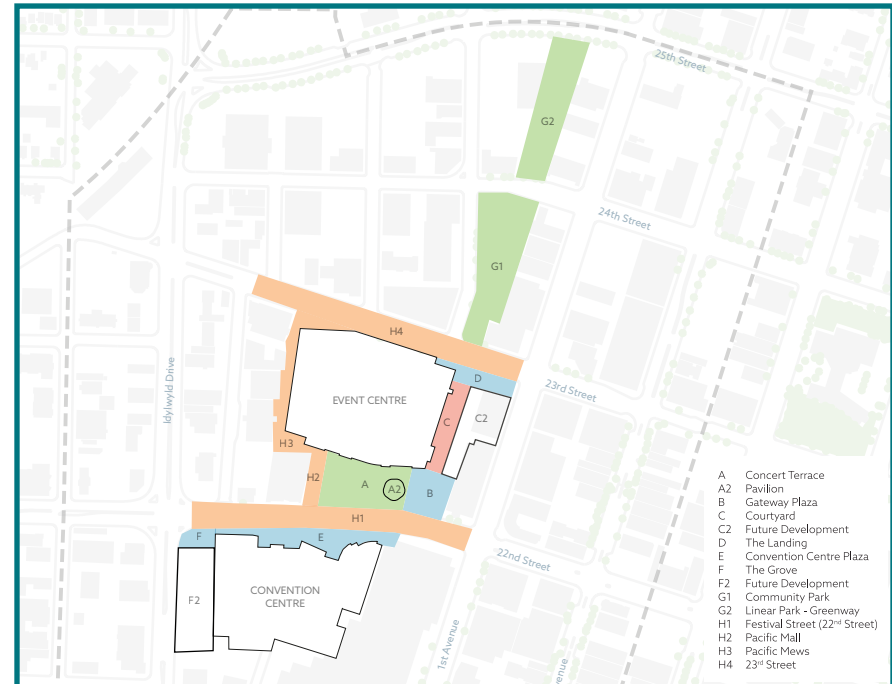

Gateway Plaza and the Landing: As entry points to the Event Centre, these spaces allow for easy movement and can be programmed with installations when the Event Centre is not in use. Serving people arriving by Link, these spaces can host community events and are equipped with electrical and water connections to support these activities.

The Courtyard: A linear space located between the Event Centre and future development creates a human scale, semi-enclosed space for people to walk through and enjoy food and drink and outdoor patios.

Convention Centre Plaza: A plaza in front of the expanded Convention Centre and renovated Theatre to serve as a place of arrival. The space can be programmed for outdoor events and activities. When 22nd Street is closed, it can function as an extension of the larger public spaces to the north, creating a large festival space for a wide range of activities.

Continued on page 25.

Map 6: District Public Gathering Spaces Site Plan

To move these projects forward:

- C3.1 Explore and secure funding sources, such as the DEED Funding Strategy or grant funding opportunities to implement the gathering spaces.
- C3.2 Advance the conceptual design of the public realm spaces, by confirming material palettes, schematic themes, and incorporation of culturally meaningful design features.
- C3.3 Work with community and Indigenous partners to advance placemaking and placekeeping design considerations for the spaces ahead of construction.
- C3.4 Once funding is secured and approved by City Council, proceed with development and implementation of the spaces.

Figure 14: The Courtyard Conceptual Cross Section, DEED Conceptual Design Report

C4. Outdoor Permanent Festival Site

Friendship Park is the proposed location for a permanent outdoor festival site, centrally located and easily accessible. A building containing public washrooms, volunteer and storage space has been constructed in the park in anticipation of the festival space. Major components of the permanent outdoor festival site will include: a Main Stage Plaza, viewing areas, the multipurpose headquarters building, lower riparian gardens, biofiltration demonstration garden, retention of the existing sculptures and memorials, a Link (BRT) Station, an amphitheater, and much more.

To move this project forward:

- C4.1 Implement the phase 2 development plan of the Outdoor Permanent Festival Site Functional Concept Plan.
- C4.2 Secure funding for the project through grant programs or the Capital Budget Process.
- C4.3 Consider the Outdoor Permanent Festival Site Functional Concept Plan when implementing the actions and transformative projects in this Plan.

Figure 15: Outdoor Permanent Festival Conceptual Rendering

C5. Potential National Urban Park

Meewasin is working with Parks Canada, and many other partners including the City of Saskatoon to explore the potential for a National Urban Park in the Saskatoon region.

A potential National Urban Park for Saskatoon will have a profound importance for the City Centre and District. It brings importance to the land, the history and the visibility of Saskatoon and the Saskatchewan story.

This Plan leverages the significance and popularity of the river valley and Meewasin Trail network, aiming to enhance connections to the City Centre and District. Connected by Greenway street types, the City Centre and District lead to gateways to the river valley. Gateways serve as physical entry points for visitors and residents, and also as a welcoming point for someone’s experience to the City Centre and District.

The gateway located at 3rd Avenue and Spadina, where Meewasin’s current office is located, has redevelopment potential that could include a visitor experience centre. This redevelopment would create a welcoming hub, building on the potential National Urban Park and seamlessly connecting the City Centre and District with the river valley for both residents and visitors.

To support this project forward:

- C5.1 The City continue to be an active member on the National Urban Park Steering Committee, supporting Meewasin’s efforts towards designation.
- C5.2 Support redevelopment of Meewasin’s site and area enhancements for a potential visitor experience centre.
- C5.3 Enhance and implement projects in the City Centre and District that support and build upon connections to the River Valley and potential National Urban Park.

D. CONNECTIONS

D1. Bus Rapid Transit (Link)

Downtown is an important focal point and destination of the Link system. By creating modern stations with frequent service and short wait times, people will be able to move quickly and efficiently into, out and through the City Centre and District. Transit will be prioritized through the City Centre and District with transit-only lanes on 1st Avenue supported with Link stations that will become primary gateways into the City Centre and District.

23rd Street & 1st Avenue will be a key transit hub in the future, served by all three Link lines, and playing a pivotal role in connecting the City Centre and District with the rest of the city. Integrating transit information into wayfinding strategies will be essential for enhancing navigation within the City Centre and District.

To move this project forward:

- D1.1 Construct Link stations and transit-supportive infrastructure to enhance connectivity and accessibility in the City Centre and District.
- D1.2 Implement actions to capitalize on the Link network and connectivity it offers.
- D1.3 Coordinate the transition of the 23rd Street and 3rd Avenue bus mall aligned with the future design of the 23rd Street Greenway.

D2. Connecting Downtown All Ages and Abilities Active Transportation Network

An equitable all ages and abilities (AAA) active transportation network is an essential part of helping the City reach its long-term transportation and land use goals.

The AAA active transportation network in Downtown is envisioned to capitalize on its proximity to the Meewasin Trail multi-use pathway and future Link stations. The network will feature protected bike lanes and supporting infrastructure and facilities.

To move this project forward:

- D2.1 Coordinate the AAA active transportation network with future streetscaping improvements and rehabilitation projects when possible.
- D2.2 Secure funding for the implementation of the AAA active transportation network.

Downtown is made up of the following districts: the Warehouse District, the Event and Entertainment District, River Landing, the Historic Downtown District, and the Spadina District.

4 ACTIONS

ACTIONS

This Plan outlines actions to achieve the vision of the City Centre and District to shape decision-making, prioritization and investment by the City and its partners and collaborators. The actions are based on objectives of each of the goals outlined in the Plan.

Actions are tangible projects, studies, or work items that are required to implement the vision of this Plan.

GOAL 1:

Reconciliation by honouring Indigenous Peoples, histories, languages and culture.

Establish inclusive, respectful and reciprocal processes throughout the planning process that align with and support the Truth and Reconciliation Calls to Action and the United Nations Declaration on the Rights of Indigenous Peoples.

The City is prioritizing work to foster meaningful organizational and policy change to help eliminate institutional and systemic racism. This Plan centers its priority around the original peoples of this territory. This work will prioritize listening to the voices of those with lived experiences, ensuring they occupy a prominent role in leading the work.

The Plan integrates placemaking and placekeeping strategies, with a focus on recognizing Indigenous spaces. Placekeeping goes beyond placemaking by acknowledging that spaces have existed for Indigenous Peoples for millennia. It involves representing the true history of a place in the spirit of Truth and Reconciliation, such as recognizing the buffalo bone trade that occurred at the railyard, where Midtown Plaza and the proposed Event Centre site now stand. The primary placekeeping priority for the City Centre and District is to honour the character and essence of what this land signifies for Indigenous people, while

Downtown Placekeeping Goals:

- Create and design culturally meaningful public spaces.
- Design a public realm that reflects Indigenous presence, belonging and cultural continuity.
- Create spaces where Indigenous People feel safe, welcomed and that reflects their cultural identity and lived experience.
- Strengthen Indigenous connection with the land.
- Advance Reconciliation efforts.

also acknowledging the harm caused through oppressive tactics, including the economic collapse brought about by the buffalo bone trade.

Although the Plan prioritizes spaces for Indigenous storytelling and cultural expression, it does not specifically define them. Implementing the Plan will involve ongoing efforts, and future implementation is intended to include engagement and collaboration with Indigenous Peoples to centre their culture and presence throughout the City Centre and District.

Figure 16: City of Saskatoon Reconciliation Visual identity

ACTIONS

Objective 1.1: Incorporate Indigenous symbols to reflect Indigenous and cultural representation.

- a. Name the ‘Downtown Event and Entertainment District’ through a meaningful appropriate process for commemoration of the land and to reflect Saskatoon’s culture.
- b. Install Treaty 6 and Métis flags and banners in public spaces and promote the use of the City of Saskatoon Reconciliation Visual Identity.
- c. Name new park and public spaces in the City Centre with consideration of commemoration of the land and cultural reflection.

Objective 1.2: Celebrate and reflect Indigenous culture and people throughout spaces and places in the Downtown.

- a. Dedicate spaces in the new Event Centre and expanded Convention Centre for the provision of storytelling, education, smudging and ceremony.
- b. Implement Indigenous placekeeping elements and stories in public spaces and building design when the detailed design for the Event and Entertainment District is implemented.
- c. With community partners, relocate the Fred Sasakamoose statue from the current location at SaskTel Centre to the Event and Entertainment District to celebrate his legacy.
- d. In consultation with First Nations, install commemorative signage outlining the history of the land and significance of Urban Reserves in the City Centre and District.

Objective 1.3: Advance reconciliation through building trust and fostering positive relationships.

- a. Prioritize the sale of City-owned land to First Nations and Indigenous organizations and developers by offering these opportunities at market rate before releasing the land to the broader market.
- b. Establish an ongoing engagement process with Elders and Knowledge Keepers for projects and processes in the City Centre and District to ensure cultural and Indigenous reflection is present throughout.
- c. Hold appropriate ceremonies to honour the land at major milestones of the development of the Event and Entertainment District.

ACTIONS

GOAL 2:

A distinctive identity through placemaking/ placekeeping

Recognize and enhance a District that celebrates the land's heritage, city's history, community's culture and embraces our winter city to foster a year-round hub for culture and entertainment.

A thriving City Centre and District extends beyond just infrastructure, it is about an inviting place where people choose to stay, immerse themselves in local culture and participate in diverse activities. Recognizing the rich diversity in our community, heritage and cultural assets become invaluable. The District has the capacity to trigger interest in redevelopment, adaptive reuse and reinvestment in heritage, and new cultural and public art opportunities.

The District provides an abundance of opportunities to highlight additional public art in the City Centre on a temporary and permanent basis. Other opportunities exist throughout the City Centre, such as the growing residential community of the Warehouse District.

Activating the City Centre and District year-round is crucial for fully embracing our winter season and sustaining activities and commerce throughout the entire year. This Plan outlines actions to enhance comfort in the City Centre and District, with designs that cater to all four seasons. This ensures that people can enjoy themselves even on the darkest and coldest days of the year.

Map 7: Public Art Opportunities

A thriving City Centre and District extends beyond just infrastructure, it is about an inviting place where people choose to stay, immerse themselves in local culture and participate in diverse activities.

ACTIONS

Objective 2.1: Celebrate diversity, culture and art.

- a. Prepare a public art strategy for the District that prioritizes public art features incorporated into the design of the public plaza spaces, emphasizing the importance of culturally and gender diverse representation.
- b. In partnership with Downtown organizations, issue a call for proposals to transform and activate a strategic back lane in the Downtown as a showcase piece.
- c. Relocate the Gordie Howe statue from SaskTel Centre for a permanent placement in the Event and Entertainment District.
- d. In partnership with Downtown organizations, facilitate short-term leases in underused or vacant City Centre properties to accommodate exhibition opportunities, public art, and below-market tenancies for cultural organizations and producers.

Objective 2.2: Protect and enhance heritage and cultural assets.

- a. Incentivize the retention of heritage assets through financial and legislative tools.
- b. Establish an outdoor display that focuses on collecting, preserving and exhibiting retro signs and associated artifacts to inspire educational and cultural enrichment.
- c. With agreement from the owners of the Capitol Theatre artifacts, explore the restoration and installation of the Capitol Theatre Marquee for a permanent placement in the District and explore possibilities for inclusion of the interior Capitol Theatre artifacts.
- d. Reinforce common design elements of the unique districts of the Downtown by establishing heritage, culture and public art features through a comprehensive interpretive plan that speaks to the heritage and culture of the Downtown.

Objective 2.3: Foster conditions to improve comfort in the City Centre and District throughout Winter.

- a. Conduct a microclimatic study of the City Centre and District, assessing climatic conditions, solar access, climate resiliency efforts and pedestrian comfort to include in policy framework, such as the Official Community Plan and Zoning Bylaw.
- b. Incentivize the installation of 220-volt outdoor receptacles along 2nd Avenue, 3rd Avenue and 21st Street to increase parking patio options year-round and encourage greater activation in the Downtown.

ACTIONS

GOAL 3:

Architectural and public realm design excellence

Inspire a sense of place through high quality design, the use of environment design principles in buildings and public space and embracing all-season design.

Vibrant downtowns are characterized by the presence of great streets, where the public realm is designed to create safe, comfortable environments for people, while interacting with surrounding buildings.

Great streets reflect the City's confidence in and commitment to the area by investing in the public realm, it not only enhances civic assets, but it also lays the groundwork for increased private investment.

Downtown streets are categorized by type, illustrated on Map 8. The street types are identified by the role of the street movement and placemaking/placekeeping objectives. Each street type also includes the key design elements that should be included in each streets design.

Buildings in the Event and Entertainment District are designed in a manner where their height, scale and character contribute to a distinct visual identity, contributing to the public realm investment. Recognizing the importance of these catalyst facilities reflecting the best of Downtown Saskatoon.

Key Streetscape Design Elements

The following design elements outline the elements critical to fulfilling the street types identified in Map 8: Downtown Streetscaping Types.

Enhanced Design: Design details and furnishings exhibit a high level of design treatment and offers spaces that provide pedestrian comfort.

Street Furniture: Components that enhance the pedestrian experience include but are not limited to benches, lighting, receptacles, planters and wayfinding.

Gathering Space: Spaces that are used for gathering, such as plazas, seating areas, and patios.

Active Movement: Active space dedicated to providing comfortable through zones for pedestrians.

Enhanced Landscaping: Increased landscaping features that enhance biodiversity and park like features.

On-Street Parking: Allows vehicular parking access and provides a buffer between the pedestrian realm and vehicular traffic lanes.

Vehicular Movement: Movement of vehicles and goods and services. Conflict between pedestrian crossings is mitigated through access management, where possible.

Map 8: Downtown Streetscaping Types

ACTIONS

ACTIONS

Objective 3.1: Re-envision streets and public right of ways.

- a. Develop a streetscape design manual for Downtown streets that details technical specifications based on the street types outlined in Map 8: Downtown Streetscaping Types.
- b. Strengthen the visual character of the Downtown through the use of standardized street furniture design, based on distinctive design areas.
- c. Implement a streetscape phasing plan based on other Transformative Projects outlined in this Plan and throughout the City Centre and District.

Objective 3.2: Establish a framework to support investment in the public realm and fosters quality design.

- a. Amend the Official Community Plan to support active streets by not permitting enclosed pedestrian bridges over public right of ways.
- b. Develop urban form guidelines for Downtown related to building design, edge conditions, street interface, safety and signage guidelines to incorporate into policy frameworks, such as the Official Community Plan and Zoning Bylaw.
- c. Amend Downtown zoning districts to encourage midrise development and reflect modern building practices.
- d. Implement a new zoning district for the Event and Entertainment District that implements standards for appropriate land use and quality design that integrates with the public realm.

GOAL 4:

Reliable and efficient transportation options

Enhance accessibility and connectivity of all modes of transportation to allow for enjoyable, safe and cost-effective movement of people in, to and around the Downtown and adjacent neighbourhoods.

The Plan outlines a multi-modal network that focuses on prioritizing active modes, the Link network and universal accessibility.

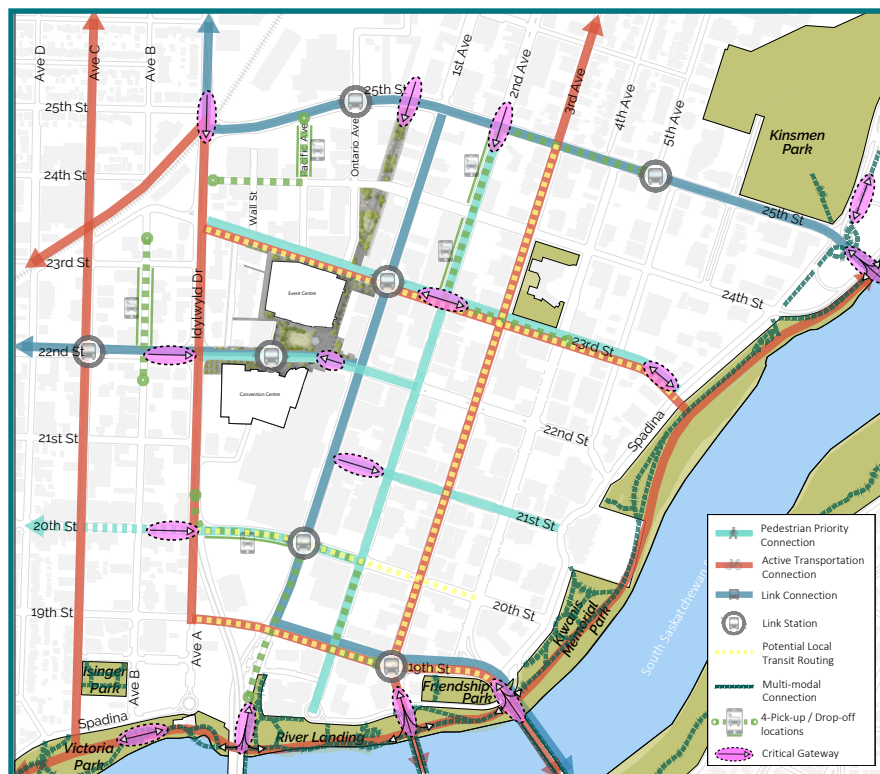

A pedestrian and cycle friendly environment is created through a connected network of street types and design that focus on comfort, safety and accessibility. A wayfinding strategy allows users to easily navigate through the City Centre and District. Bicycle parking allows people to spend more time in the City Centre and District rather than simply travelling through it.

An effective transit system plays a pivotal role in a well-connected mobility network. The Plan aligns with the Link network, and the City Centre and District is well-served with transit stations in the area served by all three Link lines. The Link corridors provide safe, reliable and efficient transit movement throughout the City Centre and District, linking to the rest of the city.

The District and City Centre creates spaces and streets that are designed for all ages and abilities. Existing barriers to movement, such as visual or physical challenges, are identified and addressed to maximize access and enjoyment of the Downtown to all citizens.

Parking is important for visitors travelling by vehicle. Effective management of parking assets is crucial for the success of the City Centre and District, while balancing the needs for vibrant, walkable public space.

Map 9: Proposed multi-modal network

A pedestrian and cycle friendly environment is created through a network of street types and design that focus on comfort, safety and accessibility.

ACTIONS

Objective 4.1: Improve pedestrian connectivity for all ages and abilities.

- Consider additional space for pedestrian movement on pedestrian priority streets.
- Enhance the pedestrian network by improving safety and comfort based on recommended improvements outlined in Map 10: Pedestrian Network and Proposed Improvements.
- Implement a wayfinding strategy, based on the Active Transportation Wayfinding Manual, to improve pedestrian navigation in the City Centre and District and surrounding amenities and facilities.
- In consultation with those with lived experiences, identify accessibility barriers in the Downtown.

Objective 4.2: Plan and invest in alternative modes.

- Ensure secured bicycle parking is provided in the Event and Entertainment District and incentivize property owners in the City Centre and District to provide additional bicycle parking facilities in strategic locations.
- Identify and pursue a location for a new Transit Customer Service Centre for increased customer access when the Link system is operational.
- Design streets accommodating local transit routes to allow for ease and access of transit operations, while still maintaining a quality public realm design.
- Develop transit service level standards to accommodate the influx of transit users during large events.

ACTIONS

Map 10: Pedestrian Network and Proposed Improvements

POTENTIAL IMPROVEMENTS

Enhanced pedestrian connection to Meewasin & National Urban Park

Pedestrian connection through linear park spaces

Critical gateways at key locations into the City Centre & District

Pedestrian priority streets along key routes

Curb extensions (corner bulb-outs) to provide additional pedestrian space at key locations

Objective 4.3: Manage parking resources efficiently.

- a. Explore parking management systems and partnerships, such as a parking authority, or internal models, to manage both private and public parking assets for a strategic approach for all parking.
- b. Prohibit the development of new single-purpose surface parking lots in strategic pedestrian focused locations in the Downtown.
- c. Explore a dynamic pricing scheme for on-street parking based on usage rates, event schedules, evening hours and other considerations in the Downtown.
- d. Invest in parking technology, such as wayfinding and smart apps to coordinate parking during event times.

**GOAL 5:
Downtown density with a focus on housing.**

Plan and encourage a mix of housing choices in the Downtown to attract a diversity of community members.

The City Centre and District have room to grow. This Plan aims to reframe the City Centre and District as comprised of complete communities and livable mixed-use neighbourhoods. A growing and diverse residential population will support increased street level vitality, new services and amenities, and a growing feedback loop of positive investment.

This Plan prioritizes significant regulatory changes to alter development conditions and encourage growth while ensuring high-quality development that makes positive contributions to streetscapes and the public realm.

The City also recognizes the strategic importance of its City Centre and District land holdings to foster this growth and help

Map 11: Downtown Districts – Land Use Focus

lead the shift to a greater residential focus. City-owned land will be made available for development in a phased manner that directs investment to locations where its impacts will be felt.

A growing and diverse residential population will support increased street level vitality, new services and amenities, and a growing feedback loop of positive investment.

ACTIONS

Map 12: Downtown Development Opportunity Sites

ACTIONS

Objective 5.1: Establish a regulatory framework to encourage density and re-frame the Downtown as a vibrant residential community.

- a. Amend the Official Community Plan to align the land use framework based on the unique Downtown districts and their development goals.
- b. Amend and introduce height bonus provisions to Downtown zoning districts in exchange for public benefits.
- c. Amend Downtown zoning districts to introduce a new regulatory approach to single-purpose surface parking lots to encourage further development.
- d. Rezone properties aligned with the land use framework and Downtown districts.

Objective 5.2: Utilize the City's land development program to catalyze development.

- a. Establish land price expectations in the Downtown when selling publicly owned land by pricing land at comparable market values.
- b. Develop a land disposition strategy for City-owned land in the City Centre and District based on the implementation of this Plan.
- c. Expand the Land Incentives Program to include ground leases in the City Centre and District.
- d. Remediate city-owned contaminated sites for future land development opportunities.

A young woman with short blonde hair is lying on her stomach on a grassy hill, reading a book. She is wearing a dark, sleeveless top and shorts. A clear plastic water bottle is next to her. The scene is set outdoors on a sunny day. A large, mature tree with green leaves is on the right side of the frame, casting a shadow over the woman. In the background, there is a large, multi-story brick building with a dark roof and many windows, surrounded by other trees. The overall atmosphere is peaceful and academic.

The Green and Open Space Framework outlines several spaces, which will be used for gathering and community events, while also contributing to the resiliency of the City Centre and District.

GOAL 6:
Leadership in resiliency

Demonstrate and exemplify leadership in sustainability through urban infill choices, economic development, climate resiliency and green infrastructure.

The Plan will advance the City Centre and District to become more sustainable and resilient to our changing climate. Through implementation of green infrastructure strategies, a proactive approach can set up the City Centre and District for the future.

The Green and Open Space Framework outlines several spaces, which will be used for gathering and community events, while also contributing to the resiliency of the City Centre and District. The Green and Open Space Framework connects critical green and open spaces, creating a network for existing and future residents, improves access to nature and residents' quality of life.

Efforts towards a resilient economy can be achieved by building for resiliency at the outset. Including a specific tree maintenance and service level for the tree canopy in the Downtown, including low impact development and incorporating green infrastructure, advances the resiliency of the City Centre and District for future generations.

ACTIONS

Objective 6.1: Develop an array of key gathering spaces that are prepared for the next generation.

- a. Implement water conservation practices and naturalize new open spaces and parks.
- b. Use innovative, multi-functional stormwater management systems to capture and uses non-potable/reclaimed water in new streetscape and park spaces.

Map 13: Green and Open Space Framework

- c. Conduct a review of the function of Civic Square and identify any improvements or upgrades required, as well as activation opportunities for the underutilized space on the north side of City Hall.
- d. Identify spaces along streets, in parks or on buildings for natural infrastructure opportunities including urban agriculture, low impact development and native plantings.

ACTIONS

Objective 6.2: Protect, maintain and grow the tree canopy.

- a. Access funding opportunities to plant more trees and maintain the health of existing trees in the City Centre and District.
- b. Increase monitoring and data analysis of trees in the Downtown, to better design planting infrastructure to optimize tree survival and performance.
- c. Establish a new tree maintenance and planting service level specific to Downtown.
- d. Create a baseline inventory and resource management plan for riverfront areas in the Downtown in partnership with Meewasin.

Objective 6.3: Invest in resilient infrastructure to serve the needs of a growing population.

- a. Implement a one-dig practice whenever possible for infrastructure and construction related projects when constructing the transformative projects in this Plan.
- b. Upgrade the water distribution and sanitary system to service the District and intensification of City Centre development.
- c. Coordinate a construction phasing plan for the City Centre and District that outlines asset preservation work and the Transformative Projects outlined in this Plan.
- d. Design new park and open spaces for multi-stream waste diversion and other waste reduction features, in alignment with the City's Solid Waste Reduction and Diversion Plan.

GOAL 7:***A robust and diverse economy.***

Preserve the Downtown as the cultural, social and employment centre of the community, while encouraging a thriving diverse economy that attracts local, regional and global employers that generate high quality jobs throughout the Downtown and city.

A robust and diverse Downtown economy generates positive spinoffs in the way of jobs, investment, spending in shops and restaurants, and the surrounding activity that makes for a thriving urban district.

Attraction and retention of new businesses, jobs, and key services and amenities that will add to the neighbourhood's livability are key to success. This will be supported by work on incentives, regulatory measures, and City policies that advance these objectives. As the District develops, the City with businesses and stakeholders may want to explore a night time economy strategy, focusing on creating a more vibrant and safe night time environment as part of new investments and contributions to the overall city's economy.

The City is committed to working with Indigenous people, communities and businesses. The City maintains a target for Indigenous procurement, and continues to recognize the contributions that Indigenous companies will have on the City Centre and District economy.

Key Market Trends

- High population growth is driving new residential and commercial demand.
- The City Centre and District have strong growth potential, especially among young professionals and empty nesters.
- The Entertainment and Warehouse Districts have character elements that support redevelopment.
- Multifamily residential development is ideal for City Centre and District infill projects.
- Retail and commercial sectors are recovering from the pandemic. Further surrounding amenities will increase demand for 'experiential' retail experiences.
- Additional residents in the City Centre will boost consumer spending to retail and services.
- No short-term increase in hotel demand is expected, however, the addition of the Entertainment District will bring new demand in the future.

ACTIONS

ACTIONS

Objective 7.1: Activate Downtown for a more attractive place to live, visit and work.

- a. Pursue the development of a grocery store in the Downtown, with the offer of financial incentives, bonusing and potential sale of City-owned land.
- b. Amend the Mobile Food Truck Policy C09-039 to allow for greater food truck access.
- c. Develop an incentive program targeting activation strategies in the Downtown for greater activation and business patronage.

Objective 7.2: Encourage economic development in the retail, business, office and non-profit service sector.

- a. Strengthen Downtown's position as the prime location for office development in the city through policy amendments.
- b. Amend the extent of the 'Retail Core' in the Official Community Plan and Zoning Bylaw to better reflect current objectives for the City Centre and District.
- c. Work with SREDA to review Policy C09-014 - Business Development Incentives to focus additional business attraction and expansion in the City Centre and District.

GOAL 8:

A healthy and safe community.

Support an authentic and welcoming community that promotes equitable opportunities for all to participate, fosters a safe and inclusive environment and cultivates a strong sense of belonging.

The Plan envisions a welcoming and inclusive environment in the City Centre and District that not only embraces but celebrates its diversity. The vision is mindful of the ongoing changes as development accelerates and housing costs rise. There is a strong desire to ensure that long-term residents, who have called Downtown home, are not displaced, even as the area becomes more desirable. The Plan includes the design and programming of the City Centre and District for the inclusion of diverse cultures, such as Indigenous, ethno-cultural, persons with a disability, 2SLGBTQQIA+ communities, all ages and socioeconomic statuses.

Committing to accessibility and equity by providing access to services and amenities that serve critical needs help address issues related to crime and the perceptions of crime through SafeGrowth and Crime Prevention Through Environmental Design (CPTED) principles.

ACTIONS

Objective 8.1: Implement equitable strategies for all residents to participate.

- a. Develop an accessibility and well-being resource that provides information about access features and barriers in the City Centre and District to support people with disability to participate in activities with greater independence and dignity.
- b. Implement a public washroom strategy that focuses on universal access in the Downtown.
- c. Establish and expand publicly accessible internet connectivity in the Downtown.
- d. Install publicly accessible water fountains, cooling water misting features and shade structures in public plazas and parks throughout the City Centre and District.

Objective 8.2: Enhance the community serving aspect of the City Centre and District.

- a. Align with the City’s Housing Strategy to increase the number of affordable housing units in the Downtown.
- b. Encourage transit use to access the City Centre and District amenities by exploring opportunities for partnerships and sponsorships related to transit fare.
- b. Based on past safety study recommendations, develop Safe Growth/CPTED guidelines for the City Centre and District to ensure consistent and appropriate recommendations to improve and maintain safety.
- c. Examine density transfers for affordable housing, non-profit development, and heritage properties that allows the developer to transfer unused height bonus to a separate site where there is more opportunity for development.

The Plan envisions a welcoming and inclusive environment in the City Centre and District that not only embraces but celebrates its diversity.

5 IMPLEMENTATION

IMPLEMENTATION & TARGETS

CITY CENTRE AND DISTRICT IMPLEMENTATION PROGRAM

Establishing a City Centre and District Implementation Program is essential to completing the actions outlined in this Plan. Continued investment and implementation will maintain momentum over its 10-year timeframe. The City Centre and District Implementation Program proposes the following:

Resourcing: Coordination resources will be necessary to implement the Transformative Projects and Actions outlined in this Plan. Coordinating efforts between private investment and community partners will also be important to bring the Plan to fruition. They will primarily manage large public realm and streetscaping capital projects that are important parts of the District and City Centre.

Operations: A dedicated operational fund is necessary to ensure the Plan is implemented throughout its 10-year period. This fund will cover actions that require further study, project management, and hard costs to promote vibrancy in the City Centre and District, leveraging private investment.

Operational funding will be leveraged through matching and/or contributory funding. Working with partners and community to fulfill the actions of the Plan will allow the City to provide a portion of funding needed, while attracting additional private investment into the City Centre and District.

Further scoping, costing and implementation strategies for each of the projects and actions outlined in this Plan will require approval from City Council before proceeding to implementation.

Capital: The implementation of the Plan will be an ongoing input into the City's regular two-year budget process. This includes the ongoing assessment of the Plan's implementation matrix and the preparation of formal business cases for capital projects, which will be submitted for City Council consideration in the overall corporate capital prioritization process.

DISTRICT FUNDING STRATEGY

The District Funding Strategy includes multiple infrastructure projects that achieves the construction of the Entertainment District with no increase in property taxes. The District funding strategy encompasses a mix of funding sources, including public and private contributions, grants, and other funding tools. These tools include:

- Accommodation Funding Contributions;
- Amusement Tax;
- Parkade Revenues;
- Tax Increment Financing;
- Private Partner Contribution.

COMMUNITY PARTNERSHIPS

The Plan recognizes the importance of partnerships in the successful implementation of this Plan. Through the implementation of this Plan, partnerships will be continually sought and encouraged. In some cases, actions in this Plan may be feasible through the efforts of groups and organizations outside the City of Saskatoon. The City Centre and District Implementation Program will be resourced to enable the use of partnerships through funding and agreements to optimize community led or partner led initiatives, including leveraging partner resources and capacity. Examples of partnerships may

include the Business Improvement Districts, Civic Partners, post-secondary institutions and any other community groups that have ideas that align with the Plan visions and where there is a desire and capacity to successfully deliver outcomes.

PRIVATE SECTOR PARTNERSHIPS

The City Centre has relied on the investment of private sector in providing buildings, amenities and services that contribute to the overall quality of life for residents, employees and visitors. The implementation of this Plan will similarly require the investment of the private sector to design, build and finance projects and spaces that contribute to urban life in the City Centre and District. The success of the City Centre and District will require investment from both the public and private sector. This Plan embraces the pursuit of mutually beneficial partnerships to extend the value of investments of both parties. This can include aligning the improvements to the public realm with private developments to create places that attract businesses and visitors. The Plan is not prescriptive as to the nature of these partnerships, but they are recognized as critical to achieving outcomes. The City is committed to ensuring that it is resourced to facilitate the necessary agreements and arrangements to foster a partnership approach.

The City Centre has relied on the investment of private sector in providing buildings, amenities and services that contribute to the overall quality of life for residents, employees and visitors.

IMPLEMENTATION TIMEFRAME

Saskatoon's City Centre and District Plan will provide guidance for a 10-year timeframe. New opportunities, challenges, and trends will emerge throughout the life of the Plan. This Plan provides direction for decision makers and investors while being flexible to accommodate changing trends and technologies. A review and update of this Plan will need occur after 10 years to address changes.

The Plan identifies actions to realize the vision and goals. The actions have been broken down into three timeframes:

Short Term (< three years):

These actions may be less complex and require less investment. These investments could be used in support of larger Transformative Projects.

Medium Term (four-seven years):

May be larger projects that require longer lead times to allow for adequate planning and project management.

Long Term (eight+ years):

These projects would be transformational in nature for the City Centre and District and require more time for funding strategies to be secured before proceeding to planning, budgeting and procurement.

The implementation matrix, outlined in Appendix 1 and 2, identify a path forward for Administration to further develop implementation strategies for City Council approval to realize the vision and goals for the City Centre and District.

IMPLEMENTATION & TARGETS

MEASURING PROGRESS

This Plan supports the consistent reporting of key metrics to the public and City Council through the Growth Monitoring Report that is produced and presented annually. The implementation matrix, as well as progress on the Transformative Projects will be reported on, along with the successes and challenges and opportunities year over year through the City Centre and District Implementation Program.

Population Growth

Setting a goal for Downtown housing production is beneficial for spurring the changes in practices that will be needed to foster additional housing. Downtown can capture an estimated 25 per cent of the City’s multifamily housing growth, consistent with the City’s Growth Plan.

Target: 200 housing units per year built in the Downtown.

Target: Population of 5,000 residents in Downtown by 2030.

Target: Population of 7,500 residents in Downtown by 2035.

Figure 17: Downtown Development Potential (projections)

| DOWNTOWN DEVELOPMENT POTENTIAL (PROJECTIONS) | | | | | |
|--|-------------------|--------------|--------------------------|-----------------------------------|--|
| District | Residential Units | Population | Commercial Space (sq. m) | Employment Projection (Employees) | Additional Open Space/Park Space (sq. m) |
| Event & Entertainment District | 1,257 | 2,011 | 18,910 | 420 | 12,195 |
| Historic Downtown District | 2,683 | 4,293 | 35,845 | 797 | — |
| River Landing* | — | — | — | — | — |
| Spadina | 1,145 | 1,832 | 17,016 | 378 | — |
| Warehouse | 488 | 781 | 13,053 | 290 | 7,600 |
| Total New Potential | 5,573 | 8,917 | 84,824 | 1,885 | 19,765 |

Event & Entertainment District does not include employees directly employed by the new Event Centre and expanded Convention Centre & Theatre; Population projections are based on the current household size in the Downtown and potential units on a variety of non-developed sites in the Downtown, considering development standards and site characteristics; Commercial space projections are based on ground floor commercial component for a variety of non-developed sites; Employees are based on the overall employee density average for the Downtown in new commercial space opportunities.

**East side of River Landing (Downtown boundary) only.*

Figure 18: Downtown Population Projections, 2006-2036

INTERPRETATION

This Plan supersedes the 2013 City Centre Plan. Any reference to the 2013 City Centre Plan elsewhere should now read as the City Centre and District Plan, 2024.

The Plan will guide decision making and actions impacting the City Centre and District and should be read in conjunction with other statutory and non-statutory documents. In the event of a conflict, this Plan does not overrule statutory guidance. Direction and policies in this Plan may provide support for projects and work plans. This Plan aligns with other City Council policies, strategic initiatives and guidelines.

Unless otherwise specified in this Plan, the boundaries or locations of any symbols or areas shown on a map or figure are approximate only and will be interpreted as such. The maps are not intended to define exact locations except where they coincide with fixed boundaries such as property lines or roads. The precise location of these boundaries, for the purpose of evaluating development proposals, will be determined by the City at the time of application.

No measurements of distances or areas should be taken from maps or illustrations in this Plan.

All illustrations and figures are for conceptual purposes only. Any changes to the text, maps or figures within this Plan need to be approved by City Council in the same way this Plan was approved.

A robust and diverse Downtown economy generates positive spinoffs in the way of jobs, investment, spending in shops and restaurants, and the surrounding activity that makes for a thriving urban district.

APPENDICES

APPENDIX 1

Implementation Matrix – Transformative Projects

| Project | | When could this happen? | What are the potential funding sources? | Who are the key partners? |
|----------------------------------|-------------------------------|--|---|--|
