PROGRESS ON HOUSING SUPPLY TARGETS

Updated to March 31, 2025

The table below provides information about the City's progress toward meeting the Housing Accelerator Fund (HAF) Housing Supply Targets.

- The table includes the number of anticipated new net units based on the projects which have been approved for affordable housing incentives.
- Units are counted based on the first above ground Building Permit issuance date. Only residential permits are counted. Permits for other types of residential uses, such as residential care homes, are not eligible to be included.

Type of Unit	HAF Target ¹	2024 Net Units ²	2025 Net Units ³ (to March)	Anticipated Net Units based on Approved Incentives with no issued Building Permit ⁴	Total 2024/2025 + Anticipated	Required Number of Units to Meet Target ¹⁰

Affordable Housing Units ⁸	660	70	23	404 (Incentives approved in Sept 2024) 256 (City owned land)	753	0

¹ **HAF Target** refers to the total number of units in the Housing Accelerator Fund Contribution Agreement. These targets must be achieved no later than December 21, 2026.

² **2024 Net Units** refers to the total number of new units for which building permits were issued in 2024. The reference to “net” is to consider any demolitions or conversions that may have also taken place.

³ **2025 Net Units** counted for 2025. The number of net units is to be confirmed.

⁴ Incentives for affordable housing development were approved by [City Council on September 25, 2024](#) and that have not received building permits to date. Incentives for affordable housing development on City-owned land were approved by [City Council on February 26, 2025](#) and that have not received building permits to date. Further details about these incentives are provided on page 3.

⁵ **Missing Middle** is defined by CMHC as ground-oriented housing types, including garden suites, secondary suites, duplexes, triplexes, fourplexes, row houses, courtyard housing, low-rise apartments (4 storeys or less).

The Housing Target for the “Missing Middle” category was exceeded in 2024 alone. This is development which occurs outside of the area which is near a LINK Station.

⁶ **Other multi-unit housing** refers to all multi-unit housing excluding missing middle and multi-unit housing in close proximity to rapid transit. Permits under the multi-unit near rapid transit may also be counted toward this target.

⁷ **Housing Supply Growth Target** refers to the total number of net new units that must be achieved no later than December 21, 2026. While there is no minimum target for Single Family Detached identified, new Single Family Detached are included in the overall Housing Supply Growth Target.

⁸ **Affordable Housing Units** are affordable to low-income households with incomes below the Saskatchewan Household Income Maximums while spending no more than 30 percent of their income on housing. Affordable Units are also captured through other categories for the total Housing Supply Growth Target.

⁹ Negative number because demolitions of one unit dwellings are required to facilitate new affordable housing projects.

¹⁰ Required number of new units based on permits that have been counted through HAF in 2024/2025 and anticipated permits.

ANNUAL HOUSING SUPPLY GROWTH TARGET

In addition to the overall Housing Supply Target, the City must reach an annual Housing Supply Target of:

- 2024 – 1,651 new net units (this target was exceeded in 2024)
- 2025 – 1,937 new net units
- 2026 – 2,327 new net units

ANNUAL HOUSING UNIT COUNT FOR PROJECTS RECEIVING HAF INCENTIVE FUNDING

- Incentives for affordable housing development were approved by [City Council on September 25, 2024](#).
- Incentives for affordable housing development on City-owned land were approved by [City Council on February 26, 2025](#).
